

Data Flow Diagram

Date	07 July 2026
Team ID	SWTID-2026-3218
Project Name	Credit Card Approval Prediction
Maximum Marks	2 Marks

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	Applicant / Bank Officer who submits applicant details and receives the approval prediction.
Rectangle with numbered header	Process	Processes applicant information, performs data preprocessing, and predicts credit card approval using machine learning.
Rectangle (solid fill, no number)	Data Store	Applicant Database, Processed Dataset, Trained ML Model, and Prediction Results.
Labelled arrow	Data Flow	Transfers applicant details, processed data, prediction requests, and approval/rejection results between entities, processes, and data stores.

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.

Data Flow Diagram – Credit Card Approval Prediction System
